Memory Fails Depositors: Cash Is Lying Dormant

Edmonton Men and Women Have Tidy Amounts To Their Credit—Simple Matter To Get It Out

By THOS. WATLING

Exclusive To The Edmonton Bulletin
OTTAWA, Feb. 22—Does anyone in Edmonton know Carl W. Roden?

He lived in the Stanley rooming house in 1916, but after that he disappeared.

He may have gone overseas and failed to return; he may have become forgetful.

The Canadian Bank of Commerce hasn't forgotten him. They have \$365 which Stanley had on deposit and has never reclaimed.

There's Sam Hill also, who was back in 1914 lived at the corner of Columbia and 15th street. He left an unclaimed bank balance of \$238.

Richard L. Burn had \$299 on deposit in 1918 and never claimed the money. He didn't give any address.

Ed Nelson with an unclaimed balance of \$171 since 1908.

What happened to George MacLeod? He was in the Edmonton office of the Commercial Union Bank when he had \$34 to his credit in the bank. He must have been forgotten when he left the hospital. His family is looking for him.

There's also the case of the forgotten folk. They are those who have been forgotten by the banks.

Forgotten folk who overlook their bank accounts are not confined to Edmonton. There are thousands of them all over Canada.

Richard L. Burn had \$299 on deposit in 1918 and never claimed the money. He didn't give any address.

Ed Nelson with an unclaimed balance of \$171 since 1908.

What happened to George MacLeod? He was in the Edmonton office of the Commercial Union Bank when he had \$34 to his credit in the bank. He must have been forgotten when he left the hospital. His family is looking for him.

There's also the case of the forgotten folk. They are those who have been forgotten by the banks.

CHAMBERLAIN SCORES Prime Minister Tells House Of Commons Time For Geneva Body To Throw Off Shams and Pretences

NO PROTECTION FOR AGGRESSION

LONDON, Feb. 22—Prime Minister Chamberlain today told the House of Commons the League of Nations as protection against aggression was "a delusion" and demanded that Geneva throw off its "shams and pretences."

Mr. Chamberlain, striving to make his voice heard above the tumult of the Labor benches, declared:

"We must not try to delude ourselves, and still more we must not try to delude the nations that they will be protected by the League against aggression."

"We know that nothing of the kind can be expected."

The reason is simple in principle, he said. It is not possible to provide collective security for anybody. "I would stay in the League because I have faith that it will be reconstituted."

Mr. Chamberlain said that the League would be reconstituted as a body of nations which are not prepared to take any action against aggression.

He said that the League would be reconstituted as a body of nations which are not prepared to take any action against aggression.

He said that the League would be reconstituted as a body of nations which are not prepared to take any action against aggression.

Eden Without a Ception

GRANDI HAS A CEPTION FROM SPAIN TERM

Ambassador Withheld Communication Until Foreign Secretary's Out

By EDWIN S. JOHNSON
Canadian Press Staff Writer

LONDON, Feb. 22.—Anthony Eden surrendered today to foreign secretary without a word, but he had agreed to accept a communication from Spain—only if the conditions of his willingness to accept regulations with Premier Mussolini toward settlement of Anglo-Italian differences.

This disclosure was made today to a House of Commons by Prime Minister Chamberlain, who declared the Italian ambassador had told him this morning he had agreed to accept a communication from Spain—only if the conditions of his willingness to accept regulations with Premier Mussolini toward settlement of Anglo-Italian differences.

Eden—There has been too much of a desire on our part to make terms with others rather than that others should make terms with us.

Chamberlain—The question is whether we are to enter upon negotiations or refuse even to discuss.

Eden—I do not believe we can make progress in European affairs unless we are prepared to accept the principle of equal treatment.

Chamberlain—Do you think we shall obtain peace by continuing the vendetta and even refusing to talk?

Eden—There are some who are willing to be never made to Chamberlain.

Chamberlain—The result to Italian desires that conversations be held before the house. They will have been followed by an Italian ultimatum.

Eden—The ultimatum is that Italy will give us a communication that ultimately we must accept.

Chamberlain—The ultimatum is that Italy will give us a communication that ultimately we must accept.

Eden—The ultimatum is that Italy will give us a communication that ultimately we must accept.

Chamberlain—The ultimatum is that Italy will give us a communication that ultimately we must accept.

Clean Break Is Shown Between Eden, Premier

LONDON, Feb. 22.—The following parallel highlights of their statements to the House of Commons Monday show how complete was the break between Prime Minister Chamberlain and his resigned foreign secretary, Anthony Eden:

Eden—This country should not plunge into negotiations... because no party indicated it was "now or never."

Chamberlain—Mr. Eden repeated that the Italian government called upon us to enter upon conversations now or never and that we are being asked to submit to three threats. There is nothing in any of the communications to justify that description.

Eden—There has been too much of a desire on our part to make terms with others rather than that others should make terms with us.

Chamberlain—The question is whether we are to enter upon negotiations or refuse even to discuss.

Eden—I do not believe we can make progress in European affairs unless we are prepared to accept the principle of equal treatment.

Chamberlain—Do you think we shall obtain peace by continuing the vendetta and even refusing to talk?

Eden—There are some who are willing to be never made to Chamberlain.

Chamberlain—The result to Italian desires that conversations be held before the house. They will have been followed by an Italian ultimatum.

SPEAKER URGES STORE PROFITS FOR RETAILERS

Blue Says Alberta Prosperity Depends on Small Merchants

By J. H. JACKSON
Canadian Press Staff Writer

The property of Alberta depends upon having the "small business" carry on its enterprises profitably. John H. Jackson, speaker of the Alberta Retail Merchants Association convention today morning in the U.S.A. Hall.

The Blue's address, in which he deplored "wrong impressions" that had grown up about business, was commended by the association.

It is not known if the facts and figures he presented to you tend to remove from the public mind some misconceptions about business in Alberta.

Fashion Note

Dodd Confirms Assertion New Fascist Empire Plan

By J. H. JACKSON
Canadian Press Staff Writer

ROCHESTER, N.Y., Feb. 22.—The Rochester Times-Union Monday said William E. Dodd, former United States ambassador to Germany, confirmed in a telephone conversation his secret testimony before a house foreign affairs committee in 1935 that Germany was planning to carry out a new "Holy Roman Empire" of Fascism from central Europe and North Africa.

After a reporter read Dodd a dispatch declaring a number of the committee said Dodd told them Germany wanted the Netherlands, Switzerland, Czechoslovakia and the "National Front" of Austria, the Balkans, while Italy eyed Spain, Greece and Palestine, Dodd observed, the paper said:

"Yes, that's right. But I'm not sure if it's true or not. I agreed that not a word of it was to be made public."

Asked his reaction to Hitler's speech Sunday, Dodd said: "I'm sure that Hitler is a man of great energy and that he will do more and more. England will not be able to stand up to him."

It looks as though the poultry yard race the Paris fashion area had headquarters being in style. But don't get this mixed up with a Schuperville version of a feather dueler. The white crested black Polish cock raised the headless hen, much to the admiration of the poultry show in New York.

The average man deals with his business firm because he has confidence in it. He has been able to get value for his money. Otherwise he would not continue to get into public meetings and begin discussing business as he no longer has any confidence in it.

Charges made "There" said Mr. Blue, "charges are made about the handling and can be shown to be such."

Herbert Hoover once said that the greatest danger to the country of Commerce is to justify the ways of the Lord. He said he would want to see certain statistics from the department of trade and commerce at Ottawa to see if there are any allegations made against the handling of the business.

In 1931, there were 5,500 retail stores in the province. In 1937, there were 10,000. This is a total of 4,500 stores that were simply closed. This is a total of 4,500 stores that were simply closed.

TOTAL SALES VOLUME In 1931, the total sales volume in 1931, he continued, in pointing out that figures for that year were the most complete he had been able to get. The total sales volume in 1931, he continued, in pointing out that figures for that year were the most complete he had been able to get.

The balances from two dollars to \$10,000. Here are the figures for the Edmonton districts of the Canadian Bank of Commerce.

Sometimes some individual will follow the herd and try to do the same. This is a total of 4,500 stores that were simply closed.

Lockenzie King Lifts Veil of Secrecy From League

What's \$190,000 Loss? Trades Body Disappointed Over Changes

CANADA VOTED SPAIN'S ENTRY NATION GROUP Dominion's Stand Given to Obviate Misrepresentation of Position

By C. R. BLACKBURN
Ottawa Press Staff Writer
OTTAWA, Feb. 22.—The veil of secrecy which covers some activities of the League of Nations was drawn aside by Prime Minister Mackenzie King Monday when he revealed to the house of commons that in the vote on Spain's eligibility for admission to the league council last September, Canada supported the motion.

Reading from a prepared statement, the prime minister answered a question by Mr. J. Colwell (C.P.F. Ruesenow-Biggar) and said he was pleased to reveal Canada's vote in the secret ballot on Spain last September. He said that Canada's vote was "in favour of giving the information which had to be given to the league council last September, Canada supported the motion."

At the same time the prime minister made it clear that Canada was for Spain as an entity, regardless of the government which represented it at the moment.

Two news reports from the Canadian Press from Buenos Aires last fall stated Canada had voted against Spain. The news was considerable editorial criticism which was the secret nature of the ballot, the prime minister did not wish to deny or confirm at that time.

In his statement Monday, the prime minister also told of the difficulties of delegations at Geneva acting quickly when they were called upon to discuss their course of action with governments many thousands miles away.

Mr. Colwell's question was whether Canada voted on the report of the League drafting committee in October last year. The prime minister said that Canada's vote was in favour of Spain for the League of Nations.

First part of the question, the prime minister explained that the drafting committee report on the Brussels conference was approved when it came before the assembly last day. The prime minister said that Canada's vote was in favour of Spain for the League of Nations.

With respect to Spain the prime minister said no instructions were given and there had been no vote several years on such votes.

GIVES REASONS
The prime minister then read a letter from Senator Dandurand, of the Senate, in which he set forth the reasons in which he was voting for Spain.

Senator Dandurand's letter expressed in 1928 its intention of withdrawing from the League of Nations if the assembly did not allow her a permanent seat in the league. It was suggested that the opportunity would be afforded of adding to the league of nations a new member with the right of veto.

Two years later, in 1930, the same procedure was proposed in the league of nations. It was suggested that the league of nations should be allowed to add a new member with the right of veto.

Because the Canadian delegation did not feel that the league of nations was in a position to take up the matter in Spain could justify the members of the league of nations in this unhappy country the further humiliation of the loss of its seat in the league.

Because the Canadian delegation did not feel that the league of nations was in a position to take up the matter in Spain could justify the members of the league of nations in this unhappy country the further humiliation of the loss of its seat in the league.

REBELS FORCE SURRENDER OF TERUEL AGAIN Strategic City Evacuated By Government Forces

By HENRY A. FORD, Feb. 22.—The Spanish government announced today the strategic city of Teruel had been evacuated by its forces.

The eastern city, capture of which late in December was hailed as the greatest government victory in the war, was abandoned in the face of furious insurgent sniping attacks through the Ebro river valley.

The defense minister of Barcelona announced that a single soldier, without arms or supplies, was found in the city.

Insurgents declared their infantry would make no gain for them, and the bulk of the army was expected to be in the city.

But with the insurgents in the city, the government army exploded mines and forced the rebels to retreat.

Government troops were retreating so slowly the rebels were expected to be in the city.

Teruel is about 200 miles south of Barcelona and 80 miles northwest of Valencia.

Ukrainian Dominion Is Seen in Costs of Government

DIAMOND FOR ECONOMY IS PRIME NEED

Industry, Workmen and Citizens Must Realize Economy Interest Same

VANCOUVER, Feb. 22.—(AP)—A steady increase in indirect costs in industry—mainly the cost of government—was bound to ruin the Dominion of Canada unless something could be done to "convince" the governments that the country must be run on a business basis.

R. H. Mayhew, of Trail, B.C., told the Vancouver Junior Board of Trade last night.

Mayhew, vice-president and general manager of Consolidated Mining and Smelting Company of Canada, said "No change is likely to occur until the demand of public opinion for rigid economy effect the vote-casting urge to over-spend."

INTEREST IDENTICAL

This would happen as soon as the industries, the workmen and the private citizens of Canada realized that their interest in economy was identical.

Further decrease of taxation might be "disastrous" and might cause such a decrease in production that the tax return would be lost. Mr. Mayhew said. The only alternative was to curtail government expenditure.

The four most promising places for economy were: (1) Refinancing the \$3,000,000 loan by the federal government; (2) Solution of the "disastrous" railway "problem"; (3) Return as far as possible to the practice before 1920 in regard to unemployment relief; and (4) "Provisional as well as federal tightening up."

CONTINUED FROM PAGE FOUR

Canadian national? Should not the credit for their action be given to their education which has stressed "internationalism" rather than Canadianism? What do the United States (from whom young Canadians expect so much protection) think of their sentiment?

Do not criticize adequate defence measures, and I hope the measures being taken will result in a just a gesture to satisfy the growing defence consciousness of the Canadian public. The Canadian point of defence alone knows the efficacy of the plan and the capability of its advisers. This will be demonstrated when the plans are put into effect and the defence are realized. The finished product will be a monument to ability or inability.

Public utilities and manufacturers take little interest in the internationality of their revenue producing points, such as electric power, gas, etc. Several within arms' reach of possible raising of rates are guarded by a few watchmen. Surely if company shareholders were to exercise the sympathy of some executives, they would be extremely uneasy of their investments.

Lastly recurring there have been several suggestions that the point of view of regulations. Surely one has to consider first the Canadian youth desire to take kindly to the ideas because it is not apparent in the concrete that the new mechanized armaments require the use of a superior type of man who will not respond to the old "cut and thrust" officer as he did type of firing officer, and the kind of an understanding man who is a good officer, but not a good manager. From a wide experience I do not believe any army can be run by a man who is not a manager.

Canada has this youth must be handled with a firm but sympathetic hand. The more talk of a general strike, the more we see a Canadian boy. If he finds that the general is worthy of the title, he will be a young Canadian of full measure of his loyalty.

The crying need in Canada at this very critical time is tolerance and understanding.

REV. E. FAIRWEATHER, Captain National League, Victoria, B.C.

SHOULD BE FREED

Editorial: On Thursday, February 10th, two men, J. J. Powell and J. H. Urvon, who are devoted to the people, were arrested for public well-being were imprisoned for a period of certain years for their political opponents. To citizens of a free country this is a most deplorable and unjust treatment to the venous and stand against the government's action against their election. The opposition now the line is whether it is an attempt to discredit members of the Credit party, for false reports, black lies, and malicious insinuations this work was carried on.

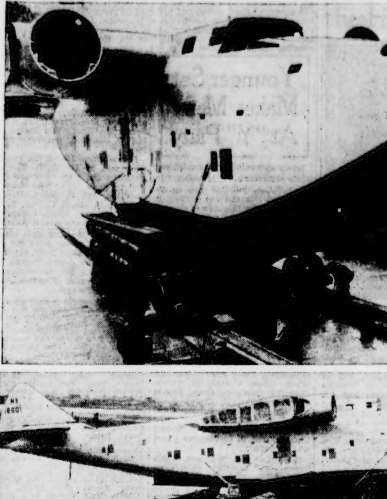

It is the virulence of the repeated attacks upon Mr. Abbott and his associates, made one wonder at the restraint which they maintained in replying to their critics.

It is one of these facts, the pamphlet, "Bunkers' Tossing," a satirical and justifiable retaliation for the attacks which they have made, and which have caused many to believe that the government is a tool of the capitalist class.

Men who fight for the liberties of the common people are required to sacrifice their own personal liberty. They have faced, and risked, and suffered persecution and the penalty of imprisonment, since they have been in the front.

The imprisonment of Mr. Powell and Mr. Urvon is a most deplorable method of depriving political rights.

Giant Clipper Outgrows Factory

Appearing as pyramids are men in the photo as they work on the 100-foot hull of the South Seas clipper, which growing too large for its quarters in the Boeing aircraft factory at Seattle, Wash., has been wheeled outdoors for final assembly. First of six such flying ships to be constructed for regular trans-Pacific flights, the clipper will carry 72 passengers on daylight trips and 40 on overnight journeys.

which were so much in fashion with tyrants of the past.

Someone has said that the law of liberty is a sword in the hands of oppressors. It may be, that is holding these laws in guilty, there was borne in mind the words of Lord Mansfield, who said back in 1770: "The greater the truth, the greater the lie."

MACKENZIE

PRO-NAZI CHIEF OF RUMANIA TO DISSOLVE PARTY

BUCHAREST, Feb. 22.—Rumania's most powerful pro-Nazi leader last night agreed to dissolve his "all party" party after King Carol offered the nation a new constitution removing greater authority to the king.

The unexpected announcement was made by Constantin Zelen Codreanu, chief of the Fascist-inclined party.

Among the 100 articles of the new constitution was one preventing the king from becoming a premier whose family had not been Rumanian for at least three generations.

Codreanu's grandfather was Polish. Foremost among the 100 articles of the constitution, was a provision giving the king absolute veto power over legislation, and authority to appoint and dismiss the cabinet.

Under the new constitution, all Rumanians without racial distinctions, and religious freedom, would be the state religion.

Headed by the king, the cabinet would be the king and his ministers, with permanent consulting of two chambers, a house and senate, both sharply reduced from their present size.

Deputies would be elected by provinces, and the king would appoint, according to membership in three guilds—farmer-labor, commercial, and intellectual professions.

J. W. Canfield On Appraisal Board

WINNIPEG, Feb. 22.—Representatives from Manitoba, Saskatchewan and Alberta would meet tonight to appraise the situation of the Canadian National Railway.

Mr. Canfield, vice-president of the Canadian National Railway, is one of the named persons with O. V. Macdonald of Regina as vice-president of the Canadian National Railway.

Idea Of Women's Forum Spreads To Calgary, Local Group Discusses Crime

WITH their example having inspired the formation of a similar organization in Calgary just recently, the Edmonton Women's Forum might well have allowed themselves a little period of mutual admiration as they reviewed events of the past two years at their meeting in the Trench hall on Monday evening.

However, for any sentimental reflections about the splendid and unique group which was formed under the sponsorship of the Local Council of Women in an effort to get women more together and through the friendly debate the various controversial questions of the day. There was something in the idea about the topic under discussion, delinquency and crime, and "Social Problems" were eagerly looked forward to with interest and few women were spent in reviewing past activities.

THOROUGHLY INVESTIGATED

Introduced by Mrs. H. E. Smith of the Mental Hygiene committee of the Edmonton Local Council of Women, the subject of delinquency was examined from every angle in connection with the increase during the depression years in the number of juvenile delinquents, and crime stories in newspapers.

All the speakers stressed the importance of probation, which they felt was one of the most promising fields of reform in Canada.

Prohibition has been found to be 80 per cent effective in stopping the crime if properly applied, stated Miss Gretchen Baker of the Y.W.C.A. Its success depends mainly upon the probation officer who is well trained and has a good understanding of child psychology, and above all a real sympathy with and interest in the young people under his care. It is significant that in the last year, 1937, 56 per cent of those never before convicted were given new things to do.

NEED NEW INTERESTS

Delinquent children must be encouraged to join groups in which they become social, instead of antisocial beings. Their parents must be taken to new things to do, and given new things to do, provided with new ideas. Mrs. J. C. Mackenzie, president of the "Thriller" of petty crime, said that the "Thriller" of petty crime is the most common type of crime.

Winners in the fairy dress competition were: Mrs. J. C. Mackenzie, 1st prize; Mrs. J. C. Mackenzie, 2nd prize; Mrs. J. C. Mackenzie, 3rd prize; Mrs. J. C. Mackenzie, 4th prize; Mrs. J. C. Mackenzie, 5th prize; Mrs. J. C. Mackenzie, 6th prize; Mrs. J. C. Mackenzie, 7th prize; Mrs. J. C. Mackenzie, 8th prize; Mrs. J. C. Mackenzie, 9th prize; Mrs. J. C. Mackenzie, 10th prize.

BASIC PRINCIPLES

The basic principle to live, freedom and self government are the basic principles of the system. Co-operation, self government, and self government are the basic principles of the system. Co-operation, self government, and self government are the basic principles of the system.

Creche Concludes Eighth Year of Service On Committee Of Glenora Carnival

Measures of the financial success attained during the past year, which, however, is a part of the success that has crowned the work in caring for the school child and assisting the working mother, were discussed at the eighth annual meeting of the Glenora Creche Society on Monday evening, February 22, 1938.

Presiding at the meeting, which was held in the Macdonald hotel, was the founder and president of the society, Lady Rodney. The past year from last sources of income—tag day, summer sale, bridge party, creche receipts and donations—totalled over \$2600, while expenditures were just over \$2500. Mrs. Spence stated in her report.

TOTAL OF 54 BILLS FACING LEGISLATURE

Four New Measures Introduced At Monday Afternoon's Sitting

Four new bills introduced into the Legislature on Monday brought the total now to be dealt with to 54. To further move the legislative program to its close, the house gave second reading to nine bills and passed nine through committee of the whole assembly, to a point where there was stand ready for third and final reading.

The four new bills brought in on Monday were: an act to amend the Rural Municipalities Act, introduced by Hon. Lester Macdonald, minister of municipal affairs; an act to provide for the continuation of the Unemployment Relief Act, introduced by Hon. Dr. W. W. Crows, minister of health and in charge of relief; an act respecting Grain Overages in Certain Elevators and an act respecting the Disposition of Deductions made on the Purchase of Cattle with Horns, the last two being introduced by Hon. D. B. Shulen, minister of agriculture.

THROUGH COMMITTEE

Passed through the committee of the whole assembly again were the following bills: amending bill to the Seed Grain and Other Advances Security Act, 1935, act respecting Penalties for Non-payment of Certain Irrigation Rates, act to amend the Public Highways Act, act to amend the Drainage Districts Act, act to amend the Dairywomen's Act, act to amend the Stationary Bandwaggon Act, act to amend the Corporations Temporary Additional Taxation Act, act to provide facilities for the Rehabilitation and Assistance of Persons who have been Affected by Polio-myelitis, act to amend the Town Planning Act.

Progress was reported on the following bills, which the house in committee will again consider at a later date: Act to amend and Consolidate the Workmen's Compensation Act (Accident Fund), act to amend the Securities Act, act to amend the Industrial Standards Act.

WORTHEN INSPECTION

When the amending measure to the Industrial Standards Act was up, Hon. Ernest C. Manning, minister of trade and industry, declared that it was proposed to tighten inspection of minimum wage regulation.

He said that local inspectors would also make a check-up on the minimum wages being paid in these premises. Arrangements for this would be made through the provincial treasurer's department and the lower central branch.

He also said that there were no changes and that provisions in force last year were merely being extended.

Mass Meeting When Masse Family Meets

Introducing Mr. and Mrs. Omer Masse and their 13 healthy children. The Masse, who live in a little farmhouse near Zurich, Ontario, believe they have the largest family in Canada. The parents have married 28 years. In the family circle above, the eldest child, 20-year-old Marie, stands at the left of the back row, with the other children arranged clockwise in order of age. The parents are seated at the left. Mrs. Masse holding the youngest, Martha, less than 1 year old. All six sons of the Masse (pronounced Mass) have entered a bed-room at night. The family bakes and eats 42 loaves of bread every week, and Saturday night Papa Masse always brings home a 100-pound sack of flour. None of the children has ever been far from home.

tended so as to make them apply to the current year.

He said that the 10 per cent surtax provisions included, were an extension from last year.

The bill amending the Seed Grain and Other Advances Security Act carries on for this year, the act of 1935, which was extended in 1937.

This measure deals with advances made by mortgagees to mortgagees, vendors to purchasers and lenders to lessees of seed grain, feed grain, fodder, fuel oil and lubricating oil.

SECURITY FOR ADVANCES

The bill also prescribes the security to be taken for such advances and creates a statutory charge on crops grown in the year in which the advance is made and in the next ensuing year.

The bill to amend the Securities Act is being sponsored by Premier William Aberhart. Under this bill, it is necessary that every application to a judge or a court in respect to any security, shall be made in the district or sub-district in which the goods to be seized are located. This is to save a debtor making a long trip to defend the seizure application, which under the act as it stands, is essential.

SEIZURE APPLICATION

It was suggested by Gerald O'Connor, Liberal, Edmonton, that the bill should be amended to provide for the seizure application for the debtors in the district where the debtor resides. It was agreed that this suggestion would be considered.

Vancouver Views Plans Curb Oriental Business

VANCOUVER, Feb. 22.—The Vancouver city council held before it Monday a motion to recommend two measures restricting Japanese-owned businesses in this city.

Admiral H. D. Wilson and H. J. de Graaf, endorsed Japanese were making inroads into almost every line of business and alleged Japanese stores were ignoring Sunday closing regulations by selling quantities of groceries.

and the clause in question was stood over.

Hon. Dr. Crows informed the house when the bill dealing with polio-myelitis-infant paralysis was under discussion, that two hospitals, the University in this city and the Red Cross in Calgary, now were accommodating 40 of these patients. He said there were 30 more cases in rural parts, and those afflicted and their relatives could not pay for necessary care.

COSTS OF TRAINING

He said that under this bill, the province assumed hospitalization costs of those stricken with infantile paralysis and at a later date they would pay costs of giving them a technical training such as in stenography or whatever appeared desirable under the circumstances.

The Industrial Standards bill also provides that employers and employees in any case can hold conference to arrange schedule, to establish working hours, minimum rates of wages and other regulations.

FIX MINIMUM RATE

A new section provides that any schedule agreed upon by employers and employees may "authorize the advisory committee to fix a minimum rate of wages lower than the rate fixed by the schedule for any classification of employees or for any individual who performs work included in more than one classification."

anese business to Japanese communities.

The measures will not be recommended until corporation counsel D. E. McKeagani considers the city's power in the matter.

Admiral H. D. Wilson and H. J. de Graaf, endorsed Japanese were making inroads into almost every line of business and alleged Japanese stores were ignoring Sunday closing regulations by selling quantities of groceries.

and the clause in question was stood over.

A new section provides that any schedule agreed upon by employers and employees may "authorize the advisory committee to fix a minimum rate of wages lower than the rate fixed by the schedule for any classification of employees or for any individual who performs work included in more than one classification."

ation of employees or whose work is partly subject to the provision of the schedule, or who is handicapped.

The advisory committee would be used by employers and employees to make the agreement.

QUESTIONS FIRED

A. E. MacLellan, S.C. Inland, fired some questions at another section of the bill, that which provides that a schedule "subject to the approval of the board may assess employers only or employees and employers only such industry to provide revenue for the enforcement of schedules. The advisory committee, in general, may be authorized to administer and enforce the schedule and to collect such assessments and out of the revenue collected to engage inspectors and other personnel and to make such expenditures as are necessary for such administration and enforcement."

Mr. Manning pointed out to the house that this legislation had been required by groups now functioning under the measure and he said there were eleven groups operating and fifteen in the course of formation. On Mr. MacLellan asking for details of the schedule, he said the clause over for further consideration.

LABOR INSPECTORS

Enforcement of labor legislation brought a question from N. B. Jones, S.C. Acting in 1935, Mr. Manning said that there were at present five men and two women employed as inspectors to train labor legislation. He declared that there should be a staff of 15, but finding the money provided the difficulty.

He also stated that a synopsis of labor legislation was being prepared and would be distributed to police in the province for guidance.

PRIVATE STATIONS PRESSING DRIVE AGAINST NATIONAL

By THOS. WATLING

EDMONTON, Feb. 22.—A concerted drive against the Canadian Broadcasting Corporation is being worked up in Toronto. Behind the drive are the anti-public ownership supporters at the verge of private radio stations and commercial, whose advertising revenue is being seriously impaired by radio competition.

The general public, even here in Toronto, is supporting the C.B.C. for bringing in the major American sponsored programs and the first rate sustaining programs such as the Metropolitan Opera, the symphony orchestras and Twentieth Century.

One well known Canadian magazine claims it has a \$50,000 amount because the advertisement could get a trans-Canada broadcast cheaper than it could be made a year and after magazines are said to be losing in the game way.

The periodicals are really suffering but to blame is on the commission will not cure the situation. With private operation the private stations would have taken even more U.S. advertising.

Broadcast Of Propaganda May Be Ended

LONDON, Feb. 22.—Hawes News Agency Monday night quoted "reliable reports" from Rome received here as stating Italy has decided to stop all political broadcasts from its powerful Bari station as a gesture marking progress toward an Anglo-Italian understanding.

Farm Loan Board Lends \$1,592,863

OTTAWA, Feb. 22.—From April 1 last year to January of this year the Federal Farm Loan Board advanced of \$1,592,863 in the various provinces, according to a report released Monday in the House of Commons. This represented 61 loans, out of 472 applications.

The distributions as to provinces followed: Prince Edward Island \$151,821; Nova Scotia, \$187,261; New Brunswick, \$183,714; Quebec, \$1,294,966; Ontario, \$750,714; Manitoba, \$506,206; Saskatchewan, \$1,619,908; Alberta, \$452,166; and British Columbia, \$126,207.

DROUTH AREA COMING BACK CRERAR VIEW

House Debates M. J. Coldwell's Resolution on Irrigation Plans

OTTAWA, Feb. 22.—Big-scale irrigation projects as a remedy for drought conditions on the prairies are too costly, the House of Commons was advised last night by Hon. T. A. Crerar, minister of agriculture.

He said that while the government is still alive with the diversion of the Saskatchewan river, it still have faith in Western Canada, the minister exclaimed when predicting the prairies would bloom again as soon as rainfall was general and timely. Only 10 years ago the west produced 500,000,000 bushels of wheat, 300,000,000 bushels of corn, 100,000,000 bushels of soybeans, and 100,000,000 bushels of flax.

"And I am convinced those years will return to us," he said.

The house was discussing a resolution sponsored by M. J. Coldwell (C.P.C.-Western-Biggar) suggesting a committee of engineers to investigate the feasibility of big-scale irrigation schemes.

"The house was still under debate when the house adjourned and will be considered further on another private members' day."

"There is nothing to be gained from the east of Canada and the world at large that the west is going and will never come back unless we speedily make a plan to achieve it," Mr. Crerar cautioned.

RAVENS P.R.

Irrigation placed a capital charge against a farm that made operation small, domestic, and a water conservation plan. They were, however, successful in the drought section and, in his view, the government should not deny them a wide-scale irrigation plan which might cost as high as \$5 each acre.

Mr. Crerar said there was no doubt that the government of Alberta was subject to recurrent droughts. It was a mistake to open these areas to grain farmers. They should have been retained as a rural reserve.

The heaviest rainfall in the west as in the Red River valley, where it reached 21 inches, a year ago, Mr. Crerar said. In southwestern Saskatchewan, where it was 18 inches, it averaged 12 or 13 inches. When that rainfall was well distributed and came at the right time, there were good crops. When it did not come at the right time, there was drought.

The Democrats had all necessary data on water supplies. It was easy to get the data on the water supply that could be irrigated and consequently it was fully up to a committee to make a plan.

Irrigation was not a new thing in the west, Mr. Crerar said. The first project established was in the east of Lethbridge, to irrigate 130,000 acres at a cost of \$100,000.

Another was 50 miles east of Calgary, costing \$500,000 to irrigate 20,000 acres. Another was the Brooks district of Alberta, costing \$1,000,000 to irrigate 60,000 acres. Another was west of Medicine Hat and Mr. Crerar understood \$150,000 had been spent and only 25,000 acres were being irrigated. There were similar projects, north of Calgary and at Taber.

COST PER ACRE

The difficulty with irrigation, Mr. Crerar said, was the cost per acre. They had seen a project to divert water from the North Saskatchewan river to irrigate 1,400,000 acres. The cost was to be \$75 an acre and he asked if any farmer could make money with an irrigation capital charge of \$75.

In divert water from the Saskatchewan river, the cost per acre was \$75. Mr. Crerar said, for instance, the banks were 100 to 200 feet high from Medicine Hat eastward and it would be necessary to pump up the water before diverting it into ditches. In addition, several miles long water-diverting water from the river and drive must be taken out to endanger their crops.

For years the Dominion government has been talking about the west, Mr. Crerar said, and it had been estimated that 90 per cent of the land that could be irrigated was in Alberta, despite the fact the other half of the drought lands was in Saskatchewan.

The Coldwell resolution was before the house all day. There was no open opposition although several western Liberals could not agree with the necessity of spending millions on such irrigation schemes when the P.P.C. was attacking drought rehabilitation so successfully.

Charles Bowdell (I.L.B. Swift Current) declared it more than 1,500,000 acres in the west that could be irrigated successfully and Dr. Thomas Denison (L.B. Wood Mountain) agreed with him.

The railways in the east of the province agreed to build a line to the west which the Japanese have conquered.

Japanese Massing Along Yellow River

SHANGHAI, Feb. 22.—Japanese forces massing along a 120-mile front along the Yellow river in central China may be ready to launch a new offensive, Chinese, north bank defenses. Chinese halted the first Japanese attempt to cross the river and strike at the Langhai railway China's east coast.

The railways in the east of the province agreed to build a line to the west which the Japanese have conquered.

HE IS ANXIOUS TO PLEASE YOU ...

Your Bulletin Carrier is really anxious to serve you.

He makes his job of delivering your paper to you each night one of conscientious effort.

He feels that his job is incomplete if he has not given you the very best of service and does everything within his power to make his business connections with you a pleasant one.

The Bulletin Carrier who delivers your paper is in business for himself and like all young-up-and-coming young businessmen deserves encouragement.

If, in any way, your Bulletin Carrier boy can better his service to you by putting your paper inside the door or in a more convenient place, please let him know. He is anxious to please you!

LONDON CLOSING

LONDON Feb. 22.—The stock exchange developed a better tendency today but dealers as well as the public were not inclined to make large commitments in advance of a clearer outlook upon the international political situation.

Gilt-edged securities rose fractionally on investment buying. German,

Austrian and Czechoslovakian bonds recovered part of yesterday's loss.

AGRICULTURE WILL BENEFIT FROM 2 BILLS

Mullen Introduces Measures Aimed At Producing Revenue

Aiming to produce revenue which will be devoted to betterment of agriculture in this province, two bills were sponsored by Hon. D. B. Mullen, minister of agriculture in the legislature on Monday.

One bill provides that the \$1 fee now being taken from livestock shipped without being deboned, be paid into government coffers to create a fund to be devoted to bettering the livestock industry.

GRAIN OVERAGES

The other provision for grain overages in deboning becoming the property of the government, rather than of private elevators and that a fund so created be set aside for improving agriculture.

W. N. Chan, Independent, Camrose, asked for information on the amount overages would total. He was informed by Mr. Speaker Peter Dawson that any questions on the bill would have to be submitted while the bill was under consideration in the committee on agriculture.

It is "merely a gesture on the government's part," commented one prominent grain man, in view of the fact that there already exists legislation designed to discourage overages at elevators. He was of the opinion that the new revenue would be derived from the government.

ELEVATOR ALLOWANCE

There is an allowance at terminal elevators of 1.25 per cent for overages and anything in excess of that amount reverts to the government and is placed in general revenue, according to the bill.

Overage allowance at private elevators is 1.3 per cent and here also regulations are to be found to discourage overages being shown at the year end.

Demolition inspectors issue a warning if private elevators show overage in excess of 1.5 per cent.

If the warning is disregarded then a license can be refused an offender.

SI NOW CHARGED

With respect to the bill dealing with deductions on cattle and horses, the minister said that the \$1 now charged, goes to pay for plants and he thought it should go to the government.

He said that a recent dehorning campaign was carried on and as a result some livestock owners actually shipped their cattle after the horns were removed.

In view of the fact that both bills have to do with matters which will both be introduced by resolution after Mr. Henson, the Lieutenant Governor had been advised of their contents and they had been recommended to the assembly.

Man Committed For Trial Result Of Shooting Affray

Continued for trial was the 31-year-old man who was arrested by police Monday on a charge of shooting with intent to murder.

Mr. Bohyrenko is being brought to Edmonton by Royal Canadian Mounted Police, and from here will be taken to Fort Saskatchewan to await trial. Details of the offense are not available in the charge sheet, but it was learned that while at Fort Saskatchewan the accused will be examined by a psychiatrist.

Nova Scotia Girl Wonder

Called "The Walking Book of Knowledge," little Jean Kathleen Demers, 10-year-old child prodigy from Tracadie, Nova Scotia, is shown above, at New York, where the whole town is taking of her knowledge of world events. In her latest feat with two New York children more than three times her age she tied for first place and got full marks at a win a gold star in a broadcast contest.

GRAD HALL IS NOW PLANNED IN EDMONTON

Continued From Page Nine

Edmonton has long needed such a centre, and while "Grad Hall" will make its appeal to all citizens it will be of special benefit to the young men and women of our city."

Mr. Richards told The Bulletin, "No matter in what field their interests lie they will find an opportunity to pursue them at Grad Hall."

"The stage-house, which will be fully equipped with facilities for reading, study, lectures, practice, rehearsals and presentations will be a place where the dramatic, musical and operatic groups in the city, which at the present time have no readily available or completely satisfactory home."

For the Edmonton Commercial Grade and other basketball teams and athletic club will provide club rooms, showers, dressing rooms, practice and match floors. While the gymnasium, swimming and diving pools, and other facilities will make it the natural centre for health and athletic groups of all kinds.

SOCIAL FACILITIES

There will be dance floors, lounges, a tea room and club rooms for the socially minded and a dance studio fully equipped for instruction in dancing for private parties.

We hope, too, that we will be able to open a circulating library and reading room. In short—it is our intention to make "Grad Hall" a place where all citizens can find what they need.

The auditorium, with seating accommodation for 1,000 persons, 700 on the main floor, and 700 in a sloping gallery, will have a stage 29 feet deep by 74 feet wide.

On the second floor there will be a large hall which will contain a practice basketball floor and three badminton courts. When the facility is not in use, it can be used for banquets.

The swimming pool will be 26 feet wide and 75 feet long, and will have a large, deep end, a pool equipped with an Olympic diving board, and a smaller pool, which can be used for only a few months each summer. It will include swimming and diving, and may include a training ground for future Olympic champions.

If the people of Edmonton are devoted to the sport of tennis, "Grad Hall," which is being constructed immediately, will be a boon on the building at once it will be finished and it will be ready for use.

Abolition Fish Trapping Urged

OTTAWA, Feb. 22—Abolition of fish trap licenses for British Columbia waters is urged by a petition signed in the House of Commons Monday by A. W. Neill, D.C., Ottawa.

The petition, which was signed by W. R. Mitchell, president of the Vancouver Island Branch of the Trout and Salmon Producers' Association, stated that more than 9,000 persons.

One Dead, Four Hurt In Crash

GRANGEVILLE, Ont., Feb. 22—Mrs. Jean Graham, 54, of Grangeville, Ont., was killed and four persons injured, two seriously, when the automobile in which they were passengers collided with a truck near Grangeville, nine miles north of here Monday.

CITY'S FRIGID SPELL BROKEN: 22 ABOVE ZERO

Cheerful Forecast of 'Mild' Issued by Local Weather Bureau

Finally managed to dig the drifted snow out of its ears, the weather man regarded his most cheering Tuesday morning, and after harking to the pleas of Edmontonians who have been deducing frost-bite since away back about January 28, he allowed the temperature in the city to climb to the highest point registered since the three-week cold spell began, the top mark being 22 above, chalked up at 9 a.m. Tuesday.

The forecast at 9 a.m. Tuesday was a cheerful "mild," giving rise to hopes that the latest cold of the winter has faded, although a number of many hardy Edmontonians who know the vagaries of the weather hereabouts have given in thought to taking off the storm winds.

Temperatures on Monday went through a rehearsal of the warmer readings scheduled for Tuesday morning, the mercury at 3 a.m. being at 18 above, and at 9 a.m. it was at 22 above, the temperature at 11 a.m. was at 22 above, the temperature at 1 p.m. was at 22 above, the temperature at 3 p.m. was at 22 above, the temperature at 5 p.m. was at 22 above, the temperature at 7 p.m. was at 22 above, the
